THE ORGANIZATION OF BAKER UNIVERSITY.

On the third day of February, 1858, an organization known as the Kansas Educational Association of the Methodist Episcopal Church was chartered by the Territorial Legislature of Kansas, with the privilege of locating an institution to be called Baker University, at or near the town of Palmyra. The Association soon after acquired a section of land adjoining the town site of Palmyra, known as the "College Section," the deed to which contains the following clause: "Upon the express condition that the lands herein conveyed shall be appropriated to the establishment of, and inure to the benefit of a college to be located thereon, to be established by and under the patronage of the Kansas and Nebraska Conference of the Methodist Episcopal Church, or such other Conferences of said Church as may hereafter be organized in Kansas, and not appropriated to purposes other than as above, or to private speculation."

Baker University was chartered on the 12th day of February, 1858. The institution was named "Baker University" in honor of Bishop Osman C. Baker. In the autumn of the same year her doors were opened to students, with Rev. W. R. Davis, D. D. as President. Notwithstanding all the embarrassments that have been met, regular work has been done every term, without interruption, down to the present.

As these Charters have not appeared frequently in recent Catalogues of the University, it has been deemed advisable to publish them in this edition.

CHARTER OF THE KANSAS EDUCATIONAL ASSOCIATION OF THE METHODIST EPISCOPAL CHURCH.

Be it enacted by the Governor and Legislative Assembly of the Territory of Kansas:

Section 1. That L. B. Dennis, A. Still, C. H. Lovejoy, Ira Blackford, W. J. Piper, T. J. Ferrill, Wm. Butt, N. Taylor, and their associates and successors, are hereby constituted a body politic and corporate, under the name and title of the Kansas Educational Association of the Methodist Episcopal Church, and by that name shall have perpetual succession, and a common seal; may sue and be sued, plead and be impleaded, defend and be defended, in any court of law or equity; and shall have full power to hold, by gift, grant, devise, purchase or otherwise, any land, tenements, hereditaments, moneys, rents, goods and chat-

P 6219

tels, of whatsoever kind, which have been heretofore, or may hereafter be given, granted or devised to, or purchased by them for the benefit of said Association, and may sell and dispose of the same, or any part thereof, or lease, or rent, or improve the same, in such manner as they shall deem most conducive to the interests of said Association.

SEC. 2. That the objects of this Association are, and shall be, the promotion of education in Kansas under the patronage of the Kansas and Nebraska Conference of the Methodist Episcopal Church, or such Conference as may be hereafter formed out of said Conference within the bounds of the Territory of Kansas.

SEC. 3. That it shall be lawful for this Association to locate a University, to be called BAKER UNIVERSITY, at the town of Palmyra, or within one mile of said town; also to locate other seminaries of learning, in such places and of such grades as may be deemed best for the cause of education.

SEC. 4. That the proceeds arising from the sale of any property belonging to this Association shall be appropriated to the BAKER UNIVERSITY, as the said Association may direct, to the amount of at least three hundred thousand dollars, except such property as may be purchased or donated for other purposes.

SEC. 5. That the Association shall have the power to make all rules, by-laws and regulations necessary to carry out the provisions of this Act.

SEC. 6. That all the property or funds, real, personal or mixed, that may be received, held or appropriated, by or for said Association, for the exclusive purpose of religion or education, including a cemetery not exceeding forty acres, shall be forever exempt from taxation.

SEC. 7. That, in case any corporation shall hereafter at any time receive, by gift, grant or devise, any number of acres of land exceeding one township of land, they shall be and are hereafter required to see and dispose of the same, within twenty-five years from the date of such gift, grant or devise; and said corporation are hereby expressly limited to the holding, at any one time, of more than one township of land, except when received by gift, grant or devise, as aforesaid, in which case they shall dispose of the same within the time aforesaid.

This Act to take effect and be in force from and after its passage.

CHARTER OF BAKER UNIVERSITY.

Be it enacted by the Governor and Legislative Assembly of the Territory of Kansas:

SECTION 1. That L. B. Dennis, Ira Blackford, Charles H. Lovejoy, Walter Oakley, N. Taylor, Homer H. Moore, James Shaw, Curtis Graham and William Butt, of the Kansas and Nebraska Conference of the Methodist Episcopal Church, and such other persons as shall, or may hereafter be appointed by the Kansas Conference, or sub-divisions of the said Kansas Conference of the said Methodist Episcopal Church, to succeed them, be, and they are hereby created and constituted a body politic and corporate, under the name and style of The Trustees of the BAKER UNIVERSITY, and henceforth shall be styled and known by that name, and, by the name and style, to remain and have perpetual succession, with power to sue and be sued, to implead and be impleaded; to acquire, hold and convey property, real, personal or mixed, in lawful ways; to have and use a common seal, and to alter same at pleasure; to make and alter from time to time such by-laws as they may deem necessary for the government of said institution, its officers and servants: Provided, Such by-laws are not inconsistent with the constitution of the United States and the organic Act; and to confer on such persons as may be considered worthy, such academical or honorary degrees as are usually conferred by similar institutions.

SEC. 2. That the term of office of said Trustees shall be four years; but they shall hereafter, at the regular Annual Conference aforesaid, in 1859, so arrange by lot that the term of office of one-fourth of their number shall expire annually; and said board shall, in the manner above specified, have perpetual succession and shall hold the property of said institution solely for the purposes of education, and not as stock for the individual benefit of themselves, or any contributor to the endowment of the same. No particular religious faith shall be required of those who become students of the institution. Nine members shall constitute a quorum for the transaction of any business of the Board, except the election of President or Professor, or the establishment of Chairs in said institution, and the enactment of by-laws for its government, for which the presence of a majority of the Board shall be necessary: Provided, That the Trustees, hereafter selected, shall not exceed thirty-two in number, who shall be fairly appointed among the respective Conferences having the selection thereof, as hereinbefore provided.

SEC. 3. That the said Annual Conference of the Methodist Episcopal Church, under whose control and patronage said University is placed, shall each also have the right to appoint annually, two suitable persons, members of their own body, visitors to said University, who shall attend the examination of students, and be entitled to participate in the deliberations of the Board of Trustees, and enjoy all the privileges of members of said Board, except the right to vote.

SEC. 4. That the said institution shall be, and hereby is, permanently located at Baldwin City, in the Territory of Kansas, and the corporators and their successors shall be competent, in law or equity, to take to themselves, in their said corporate name, real, personal or mixed estate, by gift, grant, bargain and sale, conveyance, will, demise or bequest, of any person whatsoever; and the same estate, whether real, personal or mixed, to grant, bargain, sell, convey, demise, let, place out at interest, or otherwise dispose of the same, for the use of said institution, in such manner as to them shall seem most beneficial to said institution. Said Corporators shall faithfully apply all the funds collected, as the proceeds of the property belonging to the said institution, supporting the necessary officers, instructors, servants and agents, and procuring books, maps, charts, globes and philosophical, chemical, and all other aparatus necessary to the success of said institution, under the restrictions imposed: Provided, nevertheless, That, in case any donation, demise or bequest shall be made for particular purposes, accordant with the design of the institution, and the corporation shall accept the same, every such donation, demise or bequest shall be applied in conformity with the express conditions of the donors or devisors: Provided further, That said corporation shall not be allowed to hold more than two thousand acres of land at any one time, unless the said corporation shall have received the same by gift, grant or demise; and in such case they shall be required to sell or dispose of the same within ten years from the time they shall acquire such title, and on failure to do so, such land, over and above the before named two thousand acres, shall revert to the original donor, grantor, devisors or their heirs.

SEC. 5. That the treasurer of the institution, and all other agents, when required, before entering upon the duties of their appointment shall give bond for the security of the corporation, in such penal sum and with such securities as the corporation shall approve; and all processes against the corporation shall be by summons, and the service of the same shall be by leaving an attested copy thereof with the treasurer at least sixty days before the return day thereof.

SEC. 6. That the corporation shall have power to employ and appoint a President or Principal for said institution, and all such Professors or Teachers, and all such agents or servants as may be necessary, and shall have power to displace any or such of them as the interest of the institution may require; to

fill vacancies which may happen by death, resignation or otherwise, among said officers or servants; and to prescribe and direct the course of studies to be pursued in said institution, by and with the advice and consent of the President and Professors thereof.

SEC. 7. That the corporation shall have power to establish Departments for the study of any and all the learned and liberal professions in the same, to confer the degrees of Doctor in the learned arts and sciences and belles letters, and to confer such other academical degrees as are usually conferred by the most learned institutions.

SEC. 8. That the said institution shall have power to institute a Board of competent persons, always including the Faculty, who shall examine such individuals as may apply, and, if such applicants are found to possess such knowledge pursued in said institution as, in the judgment of said Board, renders them worthy, they may be considered graduates in course, and shall be entitled to diplomas accordingly on paying such fees as the corporation shall affix; which fee, however, shall in no case exceed the tuition bills of the full course of studies in said institution. Such Examining Board may not exceed the number of ten, three of whom may transact business, provided one be of the Faculty.

SEC. 9. That, should the corporation at any time act contrary to the provisions of this charter, or fail to comply with the same, upon complaint being made to proper court of the county in which said University is situated, a *scire facias* shall issue, and the proper attorney shall prosecute in behalf of the people of the Territory for forfeiture of this charter. This act shall be a public act, and shall be construed liberally in all courts, for the purposes herein expressed.

ADMISSION.

All candidates for admission must present satisfactory testimonials of good character. Those coming from other schools must present evidence of honorable standing in the institution from which they come, and must evince their qualification for the class they propose to enter. Persons seeking admission to any of the College classes must pass an examination on the preceding studies of the course, unless they can present satisfactory grades from the institution they have previously attended.

Students presenting certificates of good standing, officially signed by the Principal or Board of Education of any city of the first or second class in the State, will be admitted, without further examination, to the class which they are prepared to enter.

All students must enroll with the President. This enrollment will be accepted as a positive and explicit agreement on their part to observe all the rules and regulations of the University. None will be admitted to the classes except on presentation of receipt for tuition and incidental fee for the current term.

Examination for admission will be held on Tuesday, at the opening of the school year, commencing at 9 o'clock A. M.

REMARKS ON THE COURSES OF STUDY.

The Collegiate Courses of Study, preceded by Preparatory instruction, are believed to represent the views of the leading educators of the age respecting those studies best adapted to secure to the student the highest mental and moral culture.

In arranging the Courses of Study, the object has been to subserve the best interests of the pupil. The completion of any course will require hard study, but will secure the desired result —mental strength, knowledge, and fitness for life's work.

CLASSICAL COURSE.—The present Classical Course will compare favorably with that laid down by similar institutions of greater age and more resources. It is marked by the prominence given to the ancient classics. It embraces those branches of study found by experience to secure the closest application, best habit of of study, greatest precision of thought, most harmonious and symmetrical development of all the intellectual faculties. All students who can possibly do so are advised to take the full Classical Course.

SCIENTIFIC COURSE.—This Course is arranged for the benefit of those who do not desire to give so much study to the Ancient Languages. It differs from the Classical in having more Mathematics and Science, dropping the Greek, and adding German.

LITERATURE AND ART COURSE.—This has been arranged to accommodate young ladies who desire to devote themselves mainly to English studies and the arts. Enough solid studies are required to secure good mental drill, and broad scope is given for selecting from the Departments of Language, Music, and Art.

NORMAL COURSE.—This Course, extending through three years, is intended to meet the wants of those fitting themselves for teaching, who, for want of time or pressure of circumstances, cannot complete one of the longer courses. A series of lectures will be given the coming year upon topics that are peculiar to the work of the teacher. During the third year the pupils will be required to take charge of classes and conduct recitations in the presence of the regular teacher.

ELECTIVE STUDIES.—Students in the Literary Course may take both Drawing and Music, or Painting and Music, when there are but two required studies. Ladies may elect Elocution instead of Oratory. Hebrew is elective in the Junior year of the Classical Course, provided a class of not less than four agree to pursue the study.

CHAPEL ORATIONS.—Sophomores are required to deliver one Chapel Oration in the Spring Term, Juniors one in each Term and Seniors one in the Fall Term and one in the Winter Term. In making up the students' grades each oration is counted as a study.

COLLEGIATE DEPARTMENT.

COURSES OF STUDY—FRESHMAN YEAR.

	CLASSICAL.	SCIENTIFIC.	LITERATURE AND ART.
FIRST TERM.	LATIN.—Vergil and Roman Antiquities. GREEK.—Anabasis and Greek Prose with Sight Reading. MATHEMATICS.—Plane Geometry. NAT. SCIENCE.—Physiology.	LATIN.—Vergil and Roman Antiquities. GERMAN.—Wilhelm Tell. MATH.—Plane Geometry. NAT. SCIENCE.—Physiology.	GERMAN.—Wilhelm Tell. MATH.—Plane Geometry. NAT. SCIENCE.—Physiology. ELECTIVES.—Latin, Painting or Music.
SECOND TERM.	LATIN.—Vergil and Roman Literature. GREEK.—Anabasis, Greek History, and Classical Geography. MATH.—Plane Geometry (completed), with Original Demonstrations. THE BIBLE.	LATIN.—Vergil and Roman Literature. GERMAN.—Iphigenie auf Tauris. MATH.—Plane Geometry (completed), with Original Demonstrations. THE BIBLE.	GERMAN.—Iphigenie auf Tauris. MATH.—Plane Geometry (completed), with Original Demonstrations. THE BIBLE. ELECTIVES.—Latin, Painting or Music.
THIRD TERM.	LATIN.—Livy and Roman History. GREEK.—Homer and Mythology. MATH.—Solid Geometry. NAT. SCIENCE.—Botany.	LATIN.—Livy and Roman History. GERMAN.—Selections from German Prose. MATH.—Solid Geometry. NAT. SCIENCE.—Botany.	GERMAN.—Selections from German Prose. MATH.—Solid Geometry. NAT. SCIENCE.—Botany. ELECTIVES.—Latin, Painting or Music.

COURSES OF STUDY—SOPHOMORE YEAR.

	CLASSICAL.	SCIENTIFIC.	LITERATURE AND ART.
FIRST TERM.	LATIN.—Horace (Epistles and Satires) and Selections from Latin Poets. GREEK.—Herodotus and Thucydides; Lectures on Greek History. MATH.—Higher Algebra. NAT. SCIENCE.—Chemistry.	LATIN.—Horace (Epistles and Satires) and Selections from Latin Poets. MATH.—Higher Algebra. NAT. SCIENCE.—Chemistry. SACRED HISTORY.	CHEMISTRY. HIGHER ALGEBRA. SACRED HISTORY. ELECTIVES.—(One required.) Latin, Painting, Music.
SECOND TERM.	LATIN.—Horace (Odes) and Plautus. GREEK.—Plato; Lectures on Greek Philosophy. MATH.—Plane and Spher. Trigonometry. ENGLISH.—Rhetoric.	LATIN.—Horace (Odes) and Plautus. MATH.—Plane and Spher. Trigonometry. NAT. SCIENCE.—Blowpipe Analysis. ENGLISH.—Rhetoric.	BLOW-PIPE ANALYSIS. PLANE AND SPHER. TRIGONOMETRY. RHETORIC. ELECTIVES.—(One required.) Latin, Painting, Music.
THIRD TERM.	LATIN.—Tacitus (Germania and Agricola) and Selections from De Oratoribus. GREEK.—Aristophanes, or MATH.—Surveying. NAT. SCIENCE.—Zoology. POLITICAL ECONOMY.	LATIN.—Tacitus (Germania and Agricola) and Selections from De Oratoribus. MATH.—Surveying—Theory, Field Practice and Plotting. NAT. SCIENCE.—Zoology. POLITICAL ECONOMY.	POLITICAL ECONOMY. ZOOLOGY. ELECTIVES.—(Two required.) Latin, Surveying, Painting, Music.

COURSES OF STUDY—JUNIOR YEAR.

	CLASSICAL.	SCIENTIFIC.	LITERATURE AND ART.
FIRST TERM.	GREEK.—Sophocles (Antigone) and Æschylus (Prometheus Bound). MATH.—Conic Sections and Analytic Geometry, or HEBREW. MENTAL PHILOSOPHY. ENGLISH AUTHORS.	PHYSICS.—Matter and Its Properties, Hydrostatics and Heat. MATH.—Conic Sections and Analytic Geometry. MENTAL PHILOSOPHY. ENGLISH AUTHORS.	MENTAL PHILOSOPHY. ENGLISH AUTHORS. ELECTIVES.—Latin. Painting. Music. (Two required.)
SECOND TERM.	GREEK.—Pindar and Greek Literature. MATH.—Analytic Geometry. PHYSICS. or HEBREW. ENGLISH.—Analysis of Style and Science of Rhetoric.	PHYSICS.—Magnetism and Electricity. MATH.—Analytic Geometry. ENGLISH.—Analysis of Style and Science of Rhetoric.	PHYSICS.—Magnetism and Electricity. ENGLISH.—Analysis of Style and Science of Rhetoric. ELECTIVES.—Latin, Painting, Music. (Two required.)
THIRD TERM.	GREEK.—Demosthenes On the Crown. PHYSICS, or HEBREW. ETHICS. SHAKESPEARE.	PHYSICS.—Pneumatics, Sound and Light. MATH.—Calculus. ETHICS. SHAKESPEARE.	PHYSICS.—Pneumatics, Sound and Light. ETHICS. SHAKESPEARE. ELECTIVES.—Latin, Painting, Music.

COURSES OF STUDY—SENIOR YEAR.

	CLASSICAL.	SCIENTIFIC.	LITERATURE AND ART.
FIRST TERM.	Geology (Structural and Dynamical) and Mineralogy. Mathematical Astronomy. Theism. Oratory.	Geology (Structural and Dynamical) and Mineralogy. Mathematical Astronomy. Theism. Oratory.	Geology (Structural and Dynamical) and Mineralogy. Theism. Oratory.
SECOND TERM.	Greek Testament. Logic. Geology.—Historical. International Law.	Geology.—Historical. Logic. International Law.	Geology.—Historical. Logic. International Law.
THIRD TERM.	Greek Testament, or Calculus. Evidences of Christianity. History of Philosophy.	Evidences of Christianity. History of Philosophy.	Evidences of Christianity. History of Philosophy.

ACADEMIC DEPARTMENT.

COURSES OF STUDY.

	FIRST TERM.	SECOND TERM.	THIRD TERM.
PREP. YEAR.	Arithmetic. English Grammar. United States History. Descriptive Geography.	Arithmetic. English Grammar. United States History. Reading and Orthography.	Arithmetic. English Grammar. Civil Government. Physiology.
JUNIOR YEAR.	Latin Reader and Grammar. General History. Physical Geography.	Latin Reader and Grammar. General History. Natural Philosophy.	Cæsar and Prose Composition. English History. Etymology. Rhetoric.
SENIOR YEAR.	First Lessons in Greek, (Cl.) Cæsar and Prose Composition. German Grammar and Reader, (Sc.and Lit.) Algebra. English Composition.	First Lessons in Greek, (Cl.) Cicero and Prose Composition. German Grammar and Reader, (Sc.and Lit.) Algebra. English Composition.	Anabasis and Greek Prose, (Cl.) Cicero and Sight Reading in Nepos. German Grammar and Reader, (Sc.and Lit.) Algebra. Descriptive Astronomy.

Elocution, two terms.....	7 00
Elocution, three terms.....	10 00
Chemicals, per term.....	50
Blow-pipe Analysis.....	1 50

Music and Art are extra, and the charges are stated in the announcements of these departments. All charges are due at the opening of each term. Students taking more studies than the number required in the catalogue for the term will be charged $1.00 for each additional study. A student taking only one study will be charged one-half the regular rates for the term. A discount

of $4.00 will be made for full payment in advance of tuition and incidental fee for the year. No rebate will be paid, except in case of protracted sickness or death; then a certificate will be given, which will be accepted from the holder as a credit on tuition at any time afterward. Rebates are made on the basis of rates by the term. Applications for rebates must be made to the faculty in writing within thirty days from the date of discontinuance of attendance.

EXPENSES FOR BOARD.

Board in private families with furnished room, light and fuel, per week, $2.75 to $3.50. Club rates, including room rent, $2.00 to $2.50. Club rates, exclusive of room, $1.75 to $2.00. Self-boarding, from $1.50 to $2.00.

INCIDENTAL EXPENSES.

A small allowance should be made for incidental expenses. These vary greatly, according to the habits of the student.

Parents are admonished not to furnish too much spending money for miscellaneous purposes. Young men and women should be taught the lesson of economy. The merchants of Baldwin are hereby earnestly requested to refuse credit to young students, without instruction from the parents or guardians.

DEPARTMENTS OF INSTRUCTION.

MENTAL, MORAL, AND POLITICAL SCIENCE.

Studies in these branches are mostly in the Senior year. The subjects included are Political Economy, Psychology, Ethics, Logic, International Law, Christian Evidences and Theism. In teaching the subjects, the aim is to stimulate thought and to induce research and investigation. As a means to this end, students are required to write criticisms and reviews of the text, and to present original productions on themes selected from the subjects under consideration.

Discussions in the class are allowed, and students are encouraged to form opinions for themselves. While a text-book is used as a basis for the study, it is not designed to confine the student to that alone. Power to think for one's self is esteemed of greater importance than simply to be able to recite the thoughts of another.

LATIN LANGUAGE AND LITERATURE.

The duties of this chair, during the past year, have been performed by other members of the faculty, but a professor of Latin Language and Literature will be elected by the Trustees before the opening of the next Collegiate year.

Four years are given to the study of Latin. In the Preparatory Course, special attention is given to the etymology, syntax and laws of the Language. Rapidity in translation from Latin to English and English to Latin, is earnestly sought by persistent practice; both literal and free translations are required, in the earlier part of this course, thus familiarizing the pupil with both the Latin and English orders in a sentence. At the more advanced stage, attention is given to developing the literary taste of the pupil by a careful study and criticism of the literature of each author read. Original composition in Latin is required.

GREEK LANGUAGE AND LITERATURE.

The study of Greek is in the highest sense beneficial. It requires closeness of attention and application, and therefore must be conducive to the highest intellectual development.

In the beginning classes, especial attention is given to etymology and syntax, and in the more advanced classes the subject matter and style of authors read will be discussed. Lectures on

Mythology, Antiquities, Art and Philosophy, will be delivered during the year.

Written accent is taught, and Greek prose composition will receive due attention. The Greek vocabulary of science will be taught, and the Greek conversational method will be used in the class room. Sight reading will also be made a specialty.

NATURAL SCIENCE.

In this department, so far as possible, the text-books have been merely guides to original investigations by the students. Such study elicits more thorough work from the student, and leads him to think for himself far more than the conning and recitation of a few pages.

In Preparatory classes, the following studies were pursued: Physical Geography, Physics, Physiology and Hygiene, and Astronomy.

In Physical Geography, while a thorough knowledge of the essential portions of the text was required, the text was used to a great extent simply as a guide to a wider study of the subject. To that end, a thesis of 1,000 words, upon some topic relating to the subject, was required of each pupil.

The physical laboratory being supplied with sufficient apparatus for clearly explaining all the principles of the science, Physics was taught largely by experiment, the simpler experiments being performed by the pupils, the more complex by the demonstrator before the class, in each case the student being required to make careful note of all phenomena and explanation of principles involved.

In Physiology and Hygiene special attention was given to the location, description and functions of each organ of the body, and the laws which govern its normal action. Besides illustrations with the human skeleton and manikin, frequent dissections of different organs were made before the class.

The class in Astronomy, besides the text work, was taught to recognize the principal stars and constellations.

The Freshmen, during the fall term, took up the study of Physiology. Each pupil was required to dissect one or more mammals, take notes of work and report. During the spring term the class pursued the study of Botany. This subject was taught by means of lectures, with a very marked degree of success over previous years. Each member was required to present an herbarium of fifty correctly mounted and analyzed specimens.

The Sophomores commenced the year with Chemistry. Two days of each week were devoted exclusively to the laboratory work. Each pupil was required to perform a series of experiments, noting carefully all phenomena, writing the reactions, and keeping notes

of all work performed. The winter term was spent entirely in the laboratory. Each member was required to determine by blow-pipe and wet analysis the composition of fifty substances. The study of Orton's Comparative Zoology was pursued during the spring term. A very complete collection of birds, mammals and marine invertebrates enabled the class to verify much of the text.

The Juniors devoted the winter and spring terms to Physics. They took up for the fall term the subjects of Hydrostatics, Pneumatics, Optics, Heat, and Acoustics, making quite extensive experimentation in each. The class devoted its entire time during the spring term to Electricity, making quite exhaustive researches in the subject.

The Seniors gave the first six weeks of the fall term to Mineralogy. The first two were devoted to lectures, and the remainder to the determination of minerals by the use of the blow-pipe. The remainder of the fall and winter terms was devoted to Geology. The nature of the locality enabled the class to make several interesting geological excursions. The cabinet of several thousand specimens illustrates well all the geological epochs.

The following pieces of apparatus have been added during the past year:

One Teoplar-Holtz Machine.
One Bennet's Electroscope.
Two Bar Magnets.
One Galvanometer, 10.5 ohms resist.
One Electro-Motor.
One Thermo-Multiplier.
One Dipping Battery.
One Columb's Torsion Balance.
One Telegraph Instrument.
One Edison's Lamp.
One Tech. Rheostat, 110 ohms resist.

GERMAN AND HISTORY.

GERMAN.—The course in German extends over two years. During the Senior Academic year, the Grammar and Reader are used, accompanied by exercises in conversation and composition.

In the Freshman year, the study of the Grammar is continued, special attention being paid to translating from English into German. The class also reads several of the German classics.

HISTORY.—The course in History embraces United States, General, English, and Sacred History. Two years' time is given to this work. Essays on historical themes are required in all these classes; and, with a constantly growing historical library, good opportunities are offered for research and for the cultivation of a taste for history.

RHETORIC, ENGLISH CLASSICS AND ORATORY.

RHETORIC.—Rhetoric is to be treated both as a science and an art: the first presenting the laws of composition; the second, practice in the application of these laws. These two go together, and when a law is learned it is to be rendered familiar by practice.

ENGLISH CLASSICS.—The writings of the masters furnish the highest models of style in English. These styles are: First, to be analyzed so as to learn what constitutes the elements of their excellence; second, the thought of one author is to be expressed, as nearly as may be, in the style of another; third, original compositions are to be written in the style, as nearly as possible, of the various authors. (Every well-trained author has his peculiar and prevailing style, but poor, indeed, is he who can write in one style only.) The law holds here as in speaking—*we learn to write by writing*, and not merely by reading about superior writers and their writings.

ELOCUTION.—Elocution aims to develop and train the voice in compass, sweetness and power; the body in grace and vigor, and the face in mobility and expressiveness. These all become factors in expressive delivery.

ORATORY.—Oratory consists of two distinct parts, matter and delivery, the latter falling chiefly in the domain of elocution. Oratory, therefore, has to do chiefly with the larger and more difficult work of preparing the address, speech or oration. As means to this end there will be: First, a series of lectures on the principles of public speaking; second, an analysis of some of the masterpieces of Webster and Burke; third, training in the preparation of addresses, and drill in the delivery of the same. The law underlying all work in this department is, that we *learn to speak by speaking*, and not merely by eulogizing famous orators and their orations.

MATHEMATICS.

In this department, pre-eminently, must efficient work be based on thoroughness in fundamental principles and operations. After the completion of Arithmetic, one year is given to the study of Algebra in the Academic Department, thus finishing quadratic equations. Another term is devoted to this branch in the Sophomore year, when, with more maturity of mind, Higher Algebra may be more satisfactorily read. A full year is now given to Geometry, thus allowing more thorough and extensive discipline in this invaluable study than heretofore. In this branch, as well as in Trigonometry and Surveying, more original and practical work has been done the past year than at any former time. The chain, compass, and transit, have been in frequent use by every member of the class in Surveying, and considerable facility has been

attained in the use of those instruments, as well as in the solution of practical problems in which they were employed.

Calculus being now a required study for all scientific students, and the scope of several other branches being enlarged, the course in Mathematics is now broader than at any former time. A better standard of scholarship can now be maintained than was previously permitted, and it will be the constant aim to approximate, as nearly as possible, to the disciplinary value and practical utility that properly attend the study of Mathematics.

DEPARTMENT OF MUSIC.

F. N. HAIR, Director.

LILLIE D. SELLERS, Assistant.

This department affords superior advantages for the study of music in all of its branches. The course of study has been carefully graded, and the general plan is that of the best European and American conservatories. The increased interest of the public has demonstrated its appreciation of the effort to secure to students a thorough musical education. Instruction will be given in Piano-forte and Organ playing, and in Voice Culture, Harmony, Counterpoint and Composition.

The Director of the Department will give a number of Piano-forte Recitals and Lectures during the school year, and there will also be recitals by the pupils.

A Choral Class will be formed and conducted by the Director of the Department.

COURSE OF STUDY.

PIANO-FORTE—FIRST GRADE.

Lebert and Stark, Stuttgart Conservatory Method, Book 1.

STUDIES.—Selected studies from Lœschorn, Op. 84 and 65; Kohler, Op. 50; Gurlitt, Duvernoy, Emery, Baumfelder, etc. Sonatinas by Sternberg, Lenz, Kohler, Emery, Clementi and Kuhlau.

PIECES.—Kullak, Sternberg, Baumfelder, Emery, Marston, Kirchner, Lichner and others.

PIANO-FORTE—SECOND GRADE.

Lebert and Stark, Stuttgart Conservatory Method, Book 2, Part 1 and 2.

STUDIES.—Buttschardt, Method of Technique. Heller, Op. 47 and 45. Technical work by Hair. Sonatas by Merkel, Clementi, Haydn, Mozart and Beethoven.

PIECES.—Mendelssohn, Dupont, Preyer, Rummel, Sternberg, Kullak, Emery, Schumaun, Marston, Lynes and others.

PIANO-FORTE—THIRD GRADE.

Lebert and Stark, Stuttgart Conservatory Method, Book 2, Part 3 and 4.

STUDIES.—Moscheles, Preludes Op. 73; Bach, Six Preludes; Bach, 2 and 3 Part Inventions; Heller, Op. 46; Wollenbaupt, Op. 22; Cramer, Selected Studies (Bulow). Technical work by Hair. Preyer, Octave Studies. Sonatas by Beethoven, Mozart, Haydn.

PIECES.—Paderewski, Seiss Barali, Preyer, Philip Scharwenka, Brassin, MacDowell, Chopin, Foote, Heller, Henselt and others.

PIANO-FORTE—FOURTH GRADE.

Lebert and Stark, Stuttgart Conservatory Method, Book 3, Part 1 and 2.

STUDIES.—Bach, English and French Suites; Mendelssohn, Seven Character-pieces; Clementi, Gradus ad Parnassum (Tausig); Heller, Op. 16 (Art of Phrasing); Kullak, Octave Studies; Tausig Daily Studies; Bach, Italian Concerto; Rheinberger, Fugue in G minor. Technical work by Hair. Sonatas by Beethoven, Grieg, Schumann.

PIECES.—Sgambati, Nicode, Saran, Jadassohn, Raff, Rubinstein, Dvorak, Scarlatti, Bach, Chopin, Reinecke, Moszkowski, Gottschalk, Rheinberger and others.

PIANO-FORTE—FIFTH GRADE.

Lebert and Stark, Stuttgart Conservatory Method, Book 3, Part 3 and 4.

STUDIES.—Bach, Well-Tempered Clavichord; Saran, Op. 2, Phantasie-pieces; Moscheles, Op. 70; Handel, Selected Suites; Bach-Liszt, Fugue in A minor; Chopin Studies, Op. 10. Technical work by Hair.

PIECES.—Liszt, Dreyschock, Rubinstein, Raff, Chopin, Brassin, Schumann, Grieg, Dvorak, MacDowell, Foote, Reinecke, Moszkowski, Mendelssohn and others. Works for two piano-fortes by Moscheles, Chopin, Saint-Saens, Mendelssohn and Grieg.

PIANO-FORTE—SIXTH GRADE.

Lebert and Stark, Stuttgart Conservatory Method, Book 4.

STUDIES.—Chopin Studies, Op. 25; Henselt Etudes; Liszt, Preludes. Schumann, Etudes Symphoniques; Bach, Well-Tempered Clavichord; Bach-Liszt, Fantasie and Fugue in G minor. Concertos by Beethoven, Bronsart, Grieg, MacDowell, Schumann, Raff, Chopin, Henselt, Mendelssohn, Liszt and Sgambati.

PIECES.—Wagner-Brassin, Brahms, Liszt, Chopin, Tschaikowski, Saint-Saens, Rheinberger, Wagner-Liszt, Sgambati, Nicode, Dvorak and MacDowell.

HARMONY—COUNTERPOINT AND COMPOSITION.

Every musician, whether amateur or professional, ought to have a practical knowledge of these important studies, and pupils are earnestly requested to take at least a one year's course in Elementary Harmony. Richter's Manual of Harmony, Emery's Elements of Harmony, Parker's Treatise on Harmony, Richter's Manual of Counterpoint, and Bussler-Cornell's Musical Form, are the text books used.

LESSONS BY MAIL IN HARMONY, COUNTERPOINT AND COMPOSITION.

This rapid and interesting method of studying the above branches is constantly gaining in public favor, and all correspondence students bear testimony as to its thoroughness and efficiency.

RATES OF TUITION.

PIANO-FORTE, ORGAN OR VOICE.

Private Lessons twice a week.

Fall term (14 weeks)	30 min. duration	$22.50;	20 min. duration	$18.75	
Winter term (11 weeks)	" " "	18.00;	" " "	15.00	
Spring term (10 weeks)	" " "	16.75;	" " "	14.25	

HARMONY, COUNTERPOINT OR COMPOSITION IN CLASS.

Fall term,	twice a week	$16.00;	once a week	$9.75
Winter term,	" "	13.25;	" "	8.25
Spring term,	" "	12.25;	" "	7.75

Private Lessons in Harmony, Counterpoint or Composition same as Piano-forte, Organ or Voice.

GENERAL RULES.

A careful examination of the following regulations is requested of all who desire to enter this department.

All students, on entering the Music Department, must obtain a matriculation card from the President of the University, and be subject to all the rules and regulations of the institution; but all business arrangements, forming of classes, changing of lesson hours, paying of tution, must be transacted with the Director of Music Department.

Tuition payable strictly in advance for the entire term.

Pupils entering the third grades of courses in Piano or Voice are *required* to study Harmony, unless special arrangements are

made and a discount of 10 per cent will be given on Harmony tuition.

Sheet music will be sold at a liberal discount.

A statement of sheet music, etc., will be sent to pupils at the end of each month, and it is expected that all such bills will be paid promptly.

Pupils will not be received for less than one term, or the unexpired portion of the term remaining after entrance.

The department *does not* furnish instruments for practice, but will gladly assist pupils in securing the use of pianos.

Concert Grand Piano will be used during the school year.

No deduction for temporary absence, nor for lessons discontinued, except in cases of protracted illness, when the department will share the loss with pupil. For further information, address

F. N. Hair,
Music Department, Baker University,
Baldwin, Kansas.

Art Department.

EDUCATIONAL AND DECORATIVE ART.

Methods of Teaching.—That branch of art which appeals directly to our senses through the eye may be considered under three general classes, viz.: Outline, Light and Shade, Color. In this order the work is being pursued. When the pupil can draw in outline readily, models in various positions, he may continue in outline work from casts, still-life groups, flowers and fruit, or work in light and shade from models. Having completed the course in this grade he may turn his attention to the study of Color. The models, casts and studies used in the studio are furnished without extra expense to the pupil.

Why Learn to Draw?—In entering upon the study of any subject, we should seek first that underlying principle which insures a solid foundation. In Art, that principle is Free-hand Drawing; and the student who neglects this part of the work, fails to find the practical worth or the highest enjoyment that might be attained by original work in Art.

Similar reasons might be presented why the pupil should study Mechanical Drawing. A good knowledge of Industrial Drawing may be made practical in the school room, at home, and in every department of industry.

It is difficult to find a class of students in any department of the College more devoted to their work. The regular course

covers three or four years, according to the time spent daily in the Art room.

The Baker University Art League meets every alternate Wednesday afternoon. A regular program, consisting of subjects from Graphic Art, Ancient and Modern Artists, and their works, is carried out at each meeting. Every art student is entitled to the privileges of the League during the time he is connected with this department.

It is desirable that students enter at the beginning of the term, but they will be received any time.

Lesson hours: Tuesday, Thursday and Saturday afternoons.

Pupils are expected to work every (school) day—afternoons.

All day work can be arranged for.

COURSE OF STUDY.

FIRST YEAR.

FALL TERM.

Form—Outline in pencil from models, casts and still-fife groups.

Plant-form—fruit, flowers, etc.

Geometric drawing.

Light and shade—from models, casts and still-life.

WINTER TERM.

Light and shade—crayon sauce or point from still-life groups.

Crayon (landscape) from copy.

Botanical Analysis.

Time sketches.

SPRING TERM.

Light and shade—sepia, crayon point or India ink, from models, and still-life groups.

Botanical Analysis, with applied design.

Normal instruction. Time sketches.

SECOND YEAR.

FALL TERM.

Color—Theory and harmony.

Water color—from fruit, flowers, etc.

Out-door sketching.

WINTER TERM.

Historic ornament.

Ancient art.

Water color, from still-life and copy.

SPRING TERM.

Medieval and Modern Artists, and Schools of Art.

Out-door sketching in crayon.

THIRD YEAR.

FALL TERM.

Anatomical drawing.

Figure drawing from studies.

Oil painting from still-life.

WINTER TERM.

Figure drawing from studies and casts.

World's noted Art Galleries, and works of the greatest artists.

Oil Painting, from still-life.

Time Sketches.

SPRING TERM.

Figure drawing from antique and from life.

Portrait work from colored studies and cabinets.

Time sketches.

FOURTH YEAR.

FALL TERM.

Oil painting—still-life and landscape.

Portraits in oil from cabinet.

Sketching.

Decorative work—wood carving, China painting, etc., or mechanical—

Geometric, orthographic and perspective.

WINTER TERM.

Portrait—from life, or

Mechanical—perspective and buiding construction.

Oil or water color painting.

Time sketches.

SPRING TERM.

Sketching—oil or water colors.

Portrait or Mechanical—machine drawing.

Time sketches.

RATES OF TUITION.

For the Winter Term	$11.00 to $16.50
By the week	2.00 to 3.00
By the lesson	.50 to .75

Double rates for all day work.

REQUIREMENTS.

Tuition must be arranged for within the first two weeks.

All students, before registering in the Art Department, must present a matriculation card from the President of the University, and be subject to all rules and regulations of the institution.

Students should work in the studio at least two periods (of 50 minutes each) each day.

No reduction for absence, nor lessons made up, except in cases of protracted illness.

Students must arrange to have their work accessible for the annual exhibition during Commencement week.

All contemplating the study of Art are cordially invited to call on me personally at the Studio, or address by mail,

NELLIE A. HEWINS, Instructor.

COMMERCIAL DEPARTMENT.

PROF. SAMUEL E. ROBERTSON, Principal.

ZIMRI H. LEWIS, Penmanship, Stenopraphy, and Type-Writing.

There has been such a demand for a practical business course that the authorities have established a full Commercial Department requiring one year to complete it. Prof. S. E. Robertson, for six years a successful instructor in Pond's Business College, of Topeka, has been secured as principal. He is enthusiastic in his work, and will give as good instruction and discipline as can be secured anywhere. There are advantages in taking a Business Course in connection with a regular College. The use of Library, privileges of the Literary Societies, popular lectures and association with pupils in various departments, greatly enhance the desirability of taking a Business Course in a regular College. The success of this department during the past year has been most gratifying. More students have elected business studies than any before. The zest and energy manifested by all the classes have attracted many new students to this department.

BRANCHES TAUGHT.

PENMANSHIP.—There is no pursuit in life that can ignore penmanship. Legible, accurate, rapid business writing, is indispensable to the world. We have had students enter this department who were confident they could never learn to write, but we have never failed in teaching them to write a beautiful business hand in a few months. No young man of limited means can have a better capital with which to commence life than a good handwriting.

BOOK-KEEPING, as is the case in all courses of commercial study, constitutes the frame-work of the business course. The financial failure of a large number of business men can be attributed to ignorance of double-entry book-keeping. New classes in this branch are organized at the beginning of every term. The entire school year is devoted to the study, thus enabling the student to become thoroughly conversant with both single and double-entry. Every one that completes the full course will be thoroughly prepared to enter upon the practical duties of an accountant.

BANKING.—Special attention is given to this branch of Bookkeeping. The student is first thoroughly drilled in the principles and forms of books used. Following this, he puts into practice what he has learned by receiving deposits, paying checks, collecting notes and drafts, issuing certificates, drawing bills of exchange, and, in fact, performing all the duties devolving upon one engaged in the banking business. It is here that the student receives the finishing touches in the course of training required to polish and perfect him as an accountant.

PRINCIPLES AND PRACTICE OF BUSINESS follows the course of book-keeping. The student here handles his money, makes out notes, drafts, checks and statements. Every paper that would be required in business has its place here. The work as performed in our leading offices and counting-rooms is here duplicated. Every transaction is guarded and not passed over until *thoroughly* understood.

COMMERCIAL LAW.—It is certainly necessary for all to have some knowledge of points of law pertaining to business. We do not claim to make lawyers of our students, but we do claim to give them a knowledge of the principles of law whereby they may be able to protect their own interests.

All points of law pertaining to business are fully and clearly brought before the student in the pursuing of this study.

COMMERCIAL ARITHMETIC.—This indispensable branch of business education forms the very foundation of business enterprise and success.

In this age of progress it is necessary for the man of business to make calculations in the most rapid and accurate manner. Such thorough and protracted drill is given as will answer both accuracy and rapidity. All the important abbreviated methods are used in giving instruction in this branch.

ENGLISH GRAMMAR.—This important branch receives special attention. Analyzing is made the basis of all the work.

The exercises in Diagraming, Analyzing, Sentence-building, and in impromptu Composition, give an interesting variety to the study. Capitalization, punctuation and use of proper language, are also carefully and thoroughly taught.

POLITICAL ECONOMY.—Large amounts of hard-earned money are finally lost by poor management, defective plans and short-sightedness. These defects can all be remedied by securing a knowledge of Political Economy. With a proper conception of this study, the student, on entering a practical life, is enabled to see and steer clear of the difficulties which cause so many ship-wrecks in the financial world.

BUSINESS CORRESPONDENCE.—The subject of letter-writing is thoroughly classified, embracing forms and matter. No drill the pupil receives can be made of more practical utility than a thorough knowledge of the common courtesies, forms and methods, in correspondence. A knowledge how to arrange and compose a good business letter is an accomplishment with which every one expecting to enter business circles should be familiar.

CIVIL GOVERNMENT.—The time has come when the man of business must understand the history, purposes, philosophy and plan of the general government The safety of the country depends largely on the intelligence of the people as to the various forms and objects of government. For this reason Civil Government has been attached to the course.

BUSINESS SPELLING.—He who cannot spell is regarded as an ignoramus; hence, the importance of this study. A large collection of words used in business has been arranged for this branch. The students write their spelling lessons, thus training at once the eye, hand and brain, to do the work so often done in a lifetime.

BUSINESS PAPERS AND LEGAL BLANKS.—In this branch the student is instructed how to make out in legal form, under the instruction of a competent teacher, Deeds, Notice to Tenant to quit Premises, Mortgage on Personal Property, Satisfaction and Release of Mortgage, Agreement, General form, Mechanic's Lien, Bill of Sale, Notice, Property Statement, Lease farm property, Mortgage Standard, Lease General form, Bond for Deed, and all other important legal papers.

DETECTION OF COUNTERFEIT MONEY.—Any one receiving a piece of counterfeit money, according to business rules, makes

good the loss. The student is here instructed how to tell a genuine piece of money from a counterfeit. Though some may imagine that but few counterfeits exist now, the total of counterfeit money captured and secured during one year was $8,830.125.

MARKING GOODS.—An accomplishment easily learned, and at the same time very useful, especially to those expecting to engage in clerical work.

LECTURES AND ILLUSTRATIONS.—The student is expected to attend all class lectures. These lectures are given by a practical accountant, who fully illustrates all business customs and usages. Much valuable information is here acquired that cannot be had from any text.

SHORTHAND.—With the ordinary method of writing we would be unable to transact the great volume of business daily presenting itself. All leading merchants, bankers, corporations, lawyers, and in fact every one having an extensive correspondence, finds it necessary to employ a short-hand writer. The supply of good short-hand writers is unequal to the demand, at a salary that is by no means meager.

TYPE-WRITING is also taught in connection with short-hand. Students have the preference of learning one or both. The demand for intelligent, skillful manipulators of the type-writer or caligraph, is constantly increasing, and the time is not far distant when the type-writer will be in as general use as the sewing machine of the present time. This department uses the Remington No. 2, latest make, all recent improvements.

COURSE OF STUDY.

FIRST TERM.—Penmanship, Book-keeping, Commercial Arithmetic, Business Correspondence, Grammar, Detection of Counterfeit Money.

SECOND TERM.—Penmanship, Book-keeping, Grammar, Business Spelling, Commercial Law, Business Papers and Legal Blanks, Marking Goods, Class Lectures.

THIRD TERM.—Penmanship, Book-keeping, Civil Government, Rhetoric, Political Economy, Principles and Practice of Business, Banking.

DIPLOMA.

Students having completed the entire Commercial Course, and satisfactorily passed all written and oral examinations, will be awarded diplomas A diploma is also granted from the Book-keeping Department to those who have made a specialty of this branch, and have complied with the necessary requirements.

CHARGES IN THE COMMERCIAL COURSE.

Fall Term.....	Tuition,	$16 00	Incidental Fee.....		$3 00
Winter Term....	"	13 00	"	"	3 00
Spring Term	"	12 00	"	"	3 00

STENOGRAPHY AND TYPE-WRITING.

Stenography, per term	$8 00
Type-Writing, per term	5 00
Book-keeping, except in Commercial Course, per term	5 00
Penmanship, " " " per term	3 00

For further particulars address the principal,

S. E. ROBERTSON,
Baldwin, Kans.

GENERAL INFORMATION.

LOCATION.

The institution is pleasantly located at Baldwin, Douglas County, on the line of the Southern Kansas Branch of the Atchison, Topeka & Santa Fe Railroad. It is in the midst of an agricultural district, and the best fruit growing section in the State. It is easily reached by rail, as two trains pass and repass each day, making ready connection with the great through lines North, South, East and West.

The town has been improved in the past year. New residences have been erected, and more will be built the coming year. The social advantages and church privileges are very good. The mutual relation of students and citizens is most amicable. All seek to make the stay of the students pleasant. The business interests are gradually improving. This is a desirable place for the young for educational purposes.

HISTORY.

BAKER UNIVERSITY is the oldest living educational institution in the State, having been chartered in February, 1858. Its doors were open to students in the autumn of the same year and regular work has been done every term since. Like most denominational schools, Baker has had a hard struggle for an existence, but, having survived many disasters, the friends feel that the crisis is now fully past, and the success of the last few years inspires hope for the future.

BUILDING AND GROUNDS.

There are two substantial buildings, located in a campus of sixteen acres, adorned with numerous trees which are making a vigorous growth, and will soon afford abundant shade.

The stone building erected some years since, is 60x80 feet; contains three recitation rooms, library and reading room, art department, two society halls, and a large museum.

Centenary Hall is built of stone and brick. It contains five recitation rooms, president's office, five private rooms, two rooms used by janitor, lecture room and chapel, with a regular seating capacity for nine hundred, and twelve hundred can be accommodated on special occasions.

These buildings afford facilities for giving instruction to five hundred pupils. The new building has made the work of the institution much more satisfactory. The property of the college is worth, at a fair estimate, $100,000.

GOVERNMENT.

The government of the institution is vested in the Faculty, and is adapted to the relations that exist in a college.

The students are recognized as possessing a moral sense and ideas of propriety. These are appealed to and relied upon in a very large measure. If, however, this course should fail, the authorities will resort to such measures as are adequate to secure good government.

The students are under salutary restrictions respecting social relations. The principles of honor are inculcated, and Christian courtesy encouraged. Experience has shown that with the majority this is sufficient; but with a few, other restraints are necessary. The Faculty will determine by proper rules, when necessary, the relations of the young men and women socially, and will prescribe at what times and under what conditions they may or may not enjoy each other's society.

Young ladies are forbidden to receive gentlemen callers in their lodging rooms, and not in parlors or reception rooms at times which will interfere with study or will not be consistent with the rules of the school..

All persons boarding students will be expected to co-operate with the Faculty in enforcing such rules of the University as relate to students in boarding houses; and should there be failure to co-operate, in case of flagrant violations, the Faculty will change the place of boarding of said students. Parlors, or proper rooms on the first floor, should be provided for lady boarders to receive gentlemen callers. If such rooms cannot be provided, young ladies boarding at such places cannot receive gentlemen callers.

REQUIREMENTS.—1. Attendance at religious exercises in College chapel each day. 2. Attendance at public worship at least once on Sabbath, at such churches as students or parent may select. 3. Punctual and regular attendance at each recitation. 4. Promptness at opening of term and continuance to the close. 5. Attendance to not fewer nor more than three recitations per day, excepting Sunday and Monday. 6. Continuance in study,

when taken up, for the time indicated in the catalogue. 7. Miscellaneous literary work of all students in Collegiate department. 8. Securing an excuse from some member of the Faculty for temporary absence from town. 9. Paying tuition and incidentals before entering classes.

PROHIBITIONS.—1. Defacing the buildings or furniture in any way. 2. Using tobacco in any form upon the College premises. 3. Lingering in the halls or about the buildings. 4. Dancing, card playing and gambling of every kind. 5. Visiting billiard, drinking and gambling saloons. 6. Visiting skating rinks, drinking intoxicating liquors, or even keeping them in room or elsewhere. 7. Throwing any kinds of missiles on the College premises. 8. Contracting debts without the knowledge of parents or guardians. 9. Absence from rooms later than ten o'clock at night. 10. Taking private lessons from teachers not members of the Faculty, except on permission of the Faculty.

PERMITS—1. Variation from the rules under Requirements, may be secured from the proper authorities when satisfactory reasons are presented.

2. Variations from Nos. 8 and 9 under Prohibitions, may be secured from the President when satisfactory reasons are presented.

EXCUSES.—1. For tardiness or absence from recitation, must be made to the respective teachers.

2. For absence from Chapel or public worship, must be made to the President.

3. All tardiness or absence from recitation, church or Chapel, must be accounted for at the earliest opportunity.

4. All unexcused absences become marks of demerit, and may result in private admonition, public reprimand, suspension or expulsion.

5. Five demerits require a private admonition from the President; ten, a written notice to parents; and fifteen, suspension from all the privileges of the University.

6. Willful violation of the rule respecting church attendance, absence from town, or absence from room later than ten o'clock, incurs a demerit of five.

EXAMINATIONS AND DEGREES.

Oral examinations are held at the close of the Fall and Winter terms, before a committee of the Faculty, and at the close of the Spring term, before a committee of the patronizing Conferences. Written examinations will be held when the text is completed and at the close of the year, and the manuscripts will be preserved for inspection by the Visiting Committee. Any student being absent from examination must pass a private examination before admis-

sion to advanced standing in classes. A grade below 70 in scale of 100, will require a review of the branch.

The Degree of Bachelor of Arts is conferred upon students who complete the Classical course and pass a satisfactory examination in the same.

The Degree of Bachelor of Science is conferred upon students who complete the Scientific course and pass a satisfactory examination in the same.

The degree of Bachelor of Literature and Art is conferred upon those completing the course of Literature and Art and passing the required examination. Those completing the Normal course will receive a diploma from that department. Those who complete the Commercial course will receive a diploma to that effect.

LITERARY SOCIETIES.

There are four Literary Societies. Two are sustained by the young gentlemen, and two by the young ladies. They afford an excellent drill in parliamentary law, and the best usages of deliberative bodies.

The Societies are under the general supervision of the Faculty, but in all the details of practical work their exercises are under their own management.

THE YOUNG MEN'S AND THE YOUNG WOMEN'S CHRISTIAN ASSOCIATION.

The object of these organizations are sufficiently understood, so that it is not necessary to explain them. The Y. M. C. A. and the Y. W. C. A. of Baker are in excellent condition. Meetings are held every week for Bible study and other religious exercises. The members of the Association are active in their attention to strangers, new students who are in need of Christian sympathy and friendship. The Christian young ladies of the College cooperate in practical religious work, holding a Gospel service every Sabbath, and giving all encouragement to their associates to consecrate their lives to Christ.

ENDOWMENT.

A vigorous effort is now being made to secure an endowment. The past year has been productive of some valuable work in this direction. The Convention of Laymen held in Baldwin, Dec. 11 and 12, 1888, was an occasion of great interest to all the friends of the University. Several subjects, pretaining to the present status of the educational work of Methodism in Kansas, were discussed ably and earnestly. But the subject which received chief attention was the importance of an immediate effort to secure an endowment. The results of this convention are manifest in greater solicitude on the part of laymen as well as ministers in our patron-

izing territory, to build up an adequate endowment. This interest was greatly increased by the Reunion of the Kansas and South Kansas Conferences, in Baldwin, March 8, 1889. The Laymen's Convention on Tuesday and Wednesday of Commencement week June 4 and 5, so organized this work that complete success seems assured.

The Convention held Dec. 10, 1889, was largely attended, and the business took a more practical turn than ever before. The Rev. J. W. Walker, of Emporia, has been secured as Corresponding Secretary of the Endowment Association, and during the time he has been engaged in this work, his efforts have been attended with the most gratifying results.

Some liberal and appreciative friends of the University have made generous propositions to contribute to the endowment on such conditions as will make their gifts of much greater value in case others will respond on similar conditions. These offers are worthy of the most careful attention, and constitute a great incentive to the friends of learning to unite in building up an institution which has already rendered such valuable service in promoting the intellectual and moral welfare of the people.

It is believed that by allowing the windows of the Chapel, recitation rooms, corridors, libraries, museums, cabinets and professorships to bear the names designated by the donors of specific amounts, that a large portion of this much needed endowment can be raised.

A number of persons have stated, confidentially, their intention to bequeath to the University a portion of their estate. Such expressions are encouraging, and are gratefully remembered; but experience has shown that it is far better to make investments in the cause of Christian education directly, by gift or deed of trust, than to risk the uncertainties of a last will and testament.

Our friends are requested to keep in mind the great advantages secured to the University by our liberal charter respecting the holding of real estate. Aged and invalid persons who desire to assist the College can do so in such a way as to relieve their own minds of care, by transferring to the Educational Association their property, and receiving an annuity in money for the same.

Baker University presents to men of wealth a rare opportunity to make their money a blessing to thousands of the most deserving young men in the land, long after the donors have passed from the scenes of time.

The example of great and useful philanthropists shows that money given to Christian education is more likely to accomplish good than in any other channel of beneficence.

Our ever devoted friends, the pastors, are earnestly requested to search diligently for every possible source of increasing the endowment of the University. Do not hesitate to make known to

the officers of the Board, or the Faculty, any suggestion which may promote the interests of our cherished school.

The officers of the Laymen's Endowment Association are:

Hon. G. A. Huron, Topeka, *President.*
Hon. J. A. Hollinger, Chapman, *Vice President.*
Rev. J. W. Walker, Baldwin, *Corresponding Secretary.*
Prof. E. M. Wood, Baldwin, *Recording Secretary.*
Hon. R. N. Allen, Chanute, *Treasurer.*

CABINET.

The past year has been productive of many valuable additions to the Cabinet. Through the liberality of friends, to whom we wish to extend our sincere thanks, three dust and moth proof cases have been secured, and much has been done in the way of further classification and arrangements of the different collections.

The following additions have been made during the year amounting to 834 specimens. Lack of space forbids a detailed report:

By M. S. Rice, Independence, Kansas:
4 Ornithological Specimens, from Baldwin, Kansas.
By Mr. West, Baldwin, Kansas:
1 Ornithological Specimen, from Baldwin, Kansas.
By J. M. Price, Ontario, Canada:
1 Botanical Specimen, from Garden of Gods, Colorado.
8 Photographic views of Texas.
19 Mineralogical Specimens from Colorado.
1 Mining Tool, from Colorado.
By J. P. Slaughter, Chetopa, Kansas:
1 Sandstone Specimen, from Bender House, Kansas.
By J. E. Mallory, Wellsville, Kansas:
4 Zoological Specimens, from Baldwin, Kansas.
By J. Robinson, Baldwin, Kansas:
5 Botanical Specimens, from Baldwin, Kansas.
By Will Stotler, Wellington, Kansas:
1 Zoological Specimen, from Baldwin, Kansas.
By H. B. Foster:
8 Zoological Specimens, from Arkansas.
By C. S. Parmenter, Baldwin, Kansas:
3 Mineralogical Specimens, from Pikes Peak, Colorado
10 Ornithological Specimens, from Baldwin, Kansas.
By H. S. West, Baldwin, Kansas:
6 Geological Specimens, from Iowa.
By A. and J. Bridwell, Baldwin, Kansas:
1 Ornithological Specimen, from Baldwin, Kansas.
1 Zoological Specimen, from Baldwin, Kansas.
By Rev. O'Byrne, Osawatomie, Kansas:
1 Zoological Specimen, from Kansas.
1 Mineralogical Specimen, from Kansas.

By John Bridwell, Baldwin, Kansas:
100 Entomological Specimens, from Baldwin, Kansas.
150 Botanical Specimens, from Baldwin, Kansas.
By Drewy Owen, Baldwin, Kansas:
1 Zoological Specimen, from Baldwin, Kansas.
2 Entomological Specimens, from Baldwin, Kansas.
By Mr. Graham, Baldwin, Kansas:
1 Ornithological Specimen, from Baldwin, Kansas.
By Dr. N. B. Paramore:
1 Ostrich Skeleton.
1 Zoological Specimen, from Baldwin, Kansas.
By W. W. Francis:
350 Mineralogical Specimens, from Colorado.
By Lee Van Kuren, Media, Kansas:
2 Live Alligators, from Florida.
By W. A. Jolly, Abilene, Kansas:
150 Mineralogical Specimens, (rare,) from Abilene, Kansas.
By Samuel Murdock, Oneida, Kansas:
5 Zoological Specimens, from Gulf of Mexico.

LIBRARY AND READING ROOM.

The library room is supplied with commodious and tasteful alcoves for the circulating library, a suitable case for the reference library, also tables for magazines and newspapers. The number of volumes in the two sections of the library, including public documents, bound magazines, and kindred matter, is, in round numbers, a little above 3,400. Additions have been made within the year as follows:

By purchase, 148 volumes, cost $247.56; by donation, 322 volumes.

The names of donors and number of volumes, by each, as follows:

Theo. Graham	2 "
Mrs. L. M. Kern	2 "

T. H. Cary, Mrs. Cutter, Mrs. S. E. Winslow, Rev. C. W. Gullett, Rev. E. C. Boaz, Minnie Henderson, Rev. A. J. Showalter, B. F. Cargie, Joseph Bristow, Rev. N. G. Thomas, Miranda Hammond, one volume each.

The sincere thanks of the institution are hereby tendered each and all of these donors.

READING ROOM.—Our reading room is supplied with the leading magazines, also with a good number of papers, both daily and weekly. The following have been generously furnished without charge:—Zion's Herald, Christian Advocate, Northwestern Christian Advocate, Central Christian Advocate, Methodist Quarterly Review, Indiana School Journal, Western School Journal, Heathen Woman's Friend, Gospel in all Lands, Musical Record, The Economist, Lawrence Daily Journal-Tribune, Salina Daily Republican, Kansas City Daily Journal, Kansas City Daily Globe, Baldwin Ledger, Lawrence Gazette, Chetopa Advance, The Parker Pilot, Paola Times, Coffeyville Journal, Humboldt Union, Marion Record, Holton Recorder, Western Christian Advocate, Good Health and Friends Review, Spring Hill Republican.

For all these the institution tenders sincere thanks, and asks the continuation of these papers for the coming year.

OUR WANT.—Our great want still continues to be more books. While our friends have been generous, we ask them to continue their liberality in both money and books. Any gift, from the smallest to the largest, will be thankfully received and duly credited. The institution will pay all expressage on donations. To avoid duplicates, all parties proposing to give, are requested to confer with the librarian.

BAKER UNIVERSITY LECTURE ASSOCIATION.

The Baker University Lecture Association was organized October 1, 1884. It is sustained by the four College Literary Societies, and is managed by a committee of three from each Society. The course for each of the years of its organization is as follows:

1884–85.

Richard Proctor,
Robert Burdette,
Dr. James Hedley,
Wm. Parsons.
Hon. John J. Ingalls.

1885–86.

Dr. C. L. Thompson,
Hon. G. W. Bain,
Joseph Cook,
Mary A. Livermore,
Stewart Rogers,
Jno. Clark Ridpath.

1886–87.

Geo. R. Wendling,
Gen. Lew Wallace,
Gov. Will Cumback,
Maj. H. C. Dane,
Col. J. P. Sanford,
Bishop Bowman.

1887–88.

Gov. Will Cumback, Hon. R. G. Horr,
Albion W. Tourgee, Dr. A. A. Willitts,
Hon. B. K. Bruce, Dr. Jessie B. Young,
Bishop J. H. Vincent, Stewart Concert Co.

1888–89.

Dr. A. A. Willitts, Jahu DeWitt Miller,
Geo. R. Wendling, Dr. J. P. D. John,
Samuel Phelps Leland.

1889–90.

Robert Burdette, F. W. Gausaulus.
James Hedley, Robert Nourse,
Joseph Cook, Schubert Quartette,
Three Illustrated Lectures by G. Wharton James.

Besides the regular lecture course, the Association furnishes, from time to time, musical and other miscellaneous entertainments. The annual expenses have been from five to six hundred dollars. The Association is self-sustaining, and as shown above furnishes the best available talent. It may be considered a permanent institution, and one whose benefits to the College cannot be too highly estimated. It has made provision for the establishment of a permanent lecture fund, which, by its own efforts and the assistance of friends, it is hoped will soon be secured.

IMPORTANT ANNOUNCEMENT.

It is the purpose of the faculty to publish in the next annual catalogue a full list of the officers and teachers of Baker University since its organization, and also a full list of both the honorary and graduate Alumni. This will be a catalogue of great interest to all friends and patrons of the school and of great historical value to all who are interested in the annals of education in Kansas. To accomplish this purpose, the prompt and hearty cooperation of all friends of the school and especially of all the Alumni, is necessary. It will not do to wait until near the close of the year before sending data. Let every Alumnas, whether he received a degree in course or *pro honore*, immediately send his address to the secretary of the faculty, Prof. O. G. Markham, Baldwin, Kansas, and in due time he will receive a printed slip containing directions for a proper report. All persons having catalogues of Baker University issued before 1870, are requested to send the secretary a postal stating the year when the catalogue was issued. It is very important that a full file of catalogues be secured. Unfortunately the institution has none at present. Trustees, former professors and ministers are earnestly requested to send any information respecting the board of instruction which will make this record as complete as possible.

ADVERTISEMENTS

—OF—

ACCREDITED BUSINESS HOUSES

AND FIRMS.

CHEAP HOMES

IN THE FERTILE VALLEY OF THE ARKANSAS.

100,000 ACRES
OF THE FINEST FARMING LAND IN COLORADO.

These lands are smooth valley lands second bottom, and are proven to be the best wheat, oats, corn and potato growing lands, and the best adapted to fruit culture in the state. Altitude 3,300 feet. These lands are under the Great Canals, which provide an abundance of water for all irrigation and domestic purposes.

ALFALFA

Makes Three and Four Crops a Year, Cutting Four to Six Tons to the Acre.

These lands lay from one to five miles from the A. T. & S. F. R. R., which makes short hauls to railroad, and bring close to market in the mountains. Crops always bring one-third to twice more than the prices of Kansas, Nebraska, etc., owing to short freight haul. Have First-class Schools. Good Churches, etc.

We have some Cheap Homestead and Timber Claim Relinquishments of Lands Under Ditch.

Price of land with full paid perpetual Water right from $15 to $30 an acre on long time at low interest.

Have You a Farm, Stock, Merchandise, Etc., to Trade for a Choice Farm Under Irrigation.

If you have, write giving description and price. Address,

L. WIRT MARKHAM & CO.,

PROWERS COUNTY. LAMAR, COLORADO.
